**10-YEAR PRODUCT  
& UV WARRANTY**

So you can enjoy your lawn without the worry.

# HOW TO ORDER YOUR ARTIFICIAL GRASS LAWN.

---

**It couldn't be easier to order your new artificial grass.**

## **STEP 1: MEASURE YOUR TURF AREA.**

Artificial grass comes in either 2 or 4 metre rolls and you will need to allow for the widest area of your lawn and trim to fit. These can be cut to any length up to 25m in increments of 10cm.

If the area is wider than 4 metres, don't worry you can always join two pieces together.

## **STEP 2: MAKE YOUR SELECTION**

Select your favourite grass from the available range, choosing the most appropriate look and feel for your garden.

**Need more help? please call: 01425 627832**

## **STEP 3: PLACE YOUR ORDER**

Take your measurements to the counter and a store colleague will process your order.

## **WARRANTY DETAILS**

All artificial grass products are guaranteed for 10 years, subject to our full terms and conditions that are available on our website:

[namgrass.co.uk/wp-content/uploads/2018/02/Namgrass-10-Year-Warranty.pdf](http://namgrass.co.uk/wp-content/uploads/2018/02/Namgrass-10-Year-Warranty.pdf)

**Please note: To ensure an absolutely perfect match of grass throughout your new lawn it is important to purchase all of the grass you need at the same time as colour and pile can vary slightly between different production batches.**

# HOW TO INSTALL YOUR ARTIFICIAL GRASS LAWN.

## STEP-BY-STEP GUIDE

- 1** Remove existing grass – a turf cutter makes much easier work of this.
- 2** Edge the area where required. Any type of edging can be used i.e. timber battens, metal or brick edging depending on the preferred finish.
- 3** Although the depths can vary due to the condition and use of the area, a typical base will consist of approximately 50-70mm of Type1 aggregate and approximately a 30mm layer of compacted and levelled granite dust. When using sand as an alternative to granite dust we recommend 80mm of Type 1 and a 20mm layer of compacted and levelled sand.

- 4** Our Geotex Membrane should then be installed over the entire area and pinned into position.
- 5** The grass is then roughly positioned and rolled out over the area, making sure all sides overlap the edges.

- 6** Allow the grass to settle and 'acclimatise' for a couple of hours.
- 7** Once the grass has settled and acclimatised, cut the edges in against the edging system using a trimming knife, making sure the grass then sits down into the recess between the edging and the base. Glue or nail grass into relevant edging if required.
- 8** Once the area is completely cut in all the way round – brush up the pile to stimulate it with a stiff broom i.e. pull the pile back on itself.
- 9** Whilst it's not essential, some high use areas, such as family gardens, benefit from an even layer of kiln dried sand - approx. 5 kilos/m<sup>2</sup>. This adds stability and weight to the product, thus making for a nicer completed project.
- 10** Joining Namgrass - for information on the correct way to join Namgrass using joining tape and Aquabond please visit our website or email us for more details at [info@namgrass.co.uk](mailto:info@namgrass.co.uk)

### TOP TIP

We recommend to install the grass with the pile pointing towards the property/main viewing point. This will enhance the overall look of the lawn

PILE DIRECTION

# FINISHING TOUCHES

It doesn't take much to install or maintain Namgrass. Just use these products and you'll have years of trouble free gardening.

## GEOTEX MEMBRANE.

Keep pesky weeds at bay.

**£1.08 RRP per m<sup>2</sup>**

This heavy-duty Geotex Membrane, specially designed for artificial grass, goes underneath your Namgrass, reducing the amount of weeds poking through.

## JOINING TAPE.

Bringing it all together.

**£1.08 RRP per linear metre**

When used with AquaBond adhesive, this joining tape provides a strong link for joining the two pieces of Namgrass.

## AQUABOND.

The strong silent type.

**£6.63 RRP per cartridge**

This will ensure your Namgrass stays put without a fuss. It can be used on a variety of surfaces and works brilliantly on joining tape.

## GRASS CLEANER.

Keep it fresh.

**£12.49 RRP per 1ltr**

Every now and then it's a good idea to give your grass a quick clean to get rid of any odours, especially if you're a pet owner.

## SHOCK PAD.

Create a comfort zone.

**From £19.99 RRP per piece**

We all know kids fall over from time to time. Our Shock Pad underlay system is fully certified and can be easily fitted beneath Namgrass to cushion impacts and reduce accidents. Available in 10mm and 25mm.

## TO REGISTER YOUR WARRANTY

- Visit: [namgrass.co.uk/register-warranty](http://namgrass.co.uk/register-warranty)
- Complete warranty form
- Warranty pack will be emailed to you\*

All warranties must be registered within one month of product purchase. Failure to do so will result in your warranty being invalid.

\*If you require a hard copy, email [info@namgrass.co.uk](mailto:info@namgrass.co.uk) with your full name, postcode and date of submission and we will pop it in the post to you.

**NEED HELP? CALL 01425 627832**

## NEED A LITTLE HELP?

If you need help with installation, we have a handpicked selection of experienced and trusted Namgrass approved installers nationwide.

Remember to let us know any delivery restrictions when you order – our artificial grass comes in rolls that can be quite bulky!

## SAY HELLO.

We're a friendly bunch and know our stuff, so if there's anything you need, please get in touch.
